

## Kid's Circulatory System Chart – BA115

Description	<p>◆ Bruce Algra's Circulatory System Poster is part of the human anatomy for kid's guide, a great educational anatomy poster illustrating the child circulatory system. Each major organ is highlighted with bright colors, making identification and learning easy. This poster can be used in the classroom as a great teaching component. Recommended for grades 4-6 studying the human circulatory system.</p>
