

Human Skeleton Chart – DG003

<p>Description</p>	<p>◆ These sturdy, yet flexible anatomical charts are manufactured with 125 micron lamination on both sides. Encompassing a wide range of physical structures and health topics, they combine colorfully detailed diagrams with informative text. Metal eyelets in the top corners allow for easy hanging.</p>
<p>Details</p>	<ol style="list-style-type: none"> 1. Dimension: 20" x 26" 2. Material: gloss paper laminated with clear polyester both sides
<p>Image</p>	 <p>The image displays a comprehensive human skeleton chart. It features two central full-body illustrations: one from the front (anterior view) and one from the back (posterior view). Surrounding these are numerous smaller, detailed diagrams of specific anatomical parts, including the skull (frontal, lateral, and cross-sections), the spine (lateral view), the ribcage, the pelvis, and various joints like the elbow, knee, and ankle. The bones are rendered in a realistic tan color, and the chart is densely packed with small text labels for identification.</p>
