

The Human Skeleton Chart – DG004

<p>Description</p>	<p>◆ Anatomically accurate with life-like colors, these posters have been created by the very best medical artists and anatomy professors. Heat-sealed on both sides with clear plastic, they are durable and tear proof. The posters are bound with sturdy rods on the top and bottom, and a hook is included for easy hanging.</p>
<p>Details</p>	<ol style="list-style-type: none"> 1. Dimension: 20" x 28" 2. Material: gloss paper laminated with clear polyester both sides
<p>Image</p>	 <p>The image is an anatomical chart titled "The Human Skeleton". It displays three views of the human skeleton: a posterior view on the left, a lateral view in the center, and an anterior view on the right. The bones are rendered in a realistic tan color, with joints such as the shoulders, elbows, wrists, hips, knees, and ankles highlighted in a light blue color. The chart is densely packed with small text labels pointing to various bones and anatomical features, though the text is too small to be legible. The title "The Human Skeleton" is centered at the top of the illustration in a bold, black font.</p>
